

List of stakeholders and key actors

Project acronym:	ECO-TEXNANO
Project full title:	Innovative tool to improve risk assessment and promote the safe use of nanomaterials in the textile finishing industry
Reference number:	LIFE12 ENV/ES/000667
Deliverable:	List of stakeholders and key actors
Version:	v1. December 2013
Associated Action:	A4
Action leader:	CENTEXBEL

Table of contents

1. Objective.....	3
2. Methodology.....	3
3. List of stakeholders and key actors.....	4

1. Objective

The involvement of stakeholders aims to ensure the development of a really useful tool that must cover the needs of the textile industry when they handle nanomaterials in their manufacturing processes.

2. Methodology

In order to disseminate the project and its outcomes towards a correct audience, a list of stakeholders and key actors is made available. In this list the audience is divided into 5 different groups. The message and its content can differ according to the type of stakeholders that is intended.

The five potential audience groups with their focus are:

- Industry: for example textile finishing companies / chemical companies / textile research centers / industry association
- Decision/policy-makers
- General audience
- Life+ communication
- Partner: Internal communication

It is noteworthy that the list of stakeholders will remain open throughout the project, in order not to exclude any stakeholder that might appear in the future, after this deliverable.

3. List of stakeholders and key actors

3.1 Key actors

Category	Type of Organisation	Name of Organisation	Country	Address	Key Contact	Function	email
